

Developmental Health Watch ~ Age 4

Alert your child's doctor or nurse if your child displays any of the following signs of possible developmental delay for this age range.

- Cannot throw ball overhand
- Cannot jump in place
- Cannot ride a tricycle
- Cannot grasp a crayon between thumb and fingers
- Has difficulty scribbling
- Cannot stack at least four blocks
- Still clings or cries whenever parents leave
- Shows no interest in interactive games
- Ignore other children
- Doesn't respond to people outside the family
- Resists sleeping, dressing, and using the toilet
- Lashes out without any self control when angry or upset
